

CHANGE STARTS WITH YOU. BECOME A **BABY BENEFACTOR.**

THANK YOU for being a creator of change! Relationships are critical to advancing the change we want to see in the world. We are part of a community, both formal and informal, that supports families and caregivers in our region. By providing diapers and essential hygiene products, we help our partners amplify their work and allow them to build and deepen relationships with the families we serve. Along with our partners, we are strengthening the safety net that supports us all – and it is only together with our community that we will achieve our intended impact.
